

# CRABTREE & EVELYN

Founded in 1973 in Cambridge, Massachusetts, **Crabtree & Evelyn** has evolved from a small, family-run business to an international company, respected for its naturally inspired remedies and home comforts.

Long before the 'natural' and 'wellness' movement became popular, Crabtree & Evelyn was wholeheartedly embracing the riches of the natural world. Their inspirational model is the early home apothecary, or "still room" as it was called in England. Still rooms existed in a time when the garden played an integral role in daily life - a time when fresh flowers, herbs and fruits were distilled to make fragrant waters for the bath and soothing essences for the skin. It is this unique relationship with nature that Crabtree & Evelyn seeks to preserve.

The company name was inspired by the 17th century Englishman, John Evelyn. Evelyn is most famous for *Sylva*, the first important work on conservation, published at a time when England's forests were being stripped of timber to build ships for the expanding British Navy. His great estate, Sayes Court, was planted with large expanses of elm trees, and the magnificent gardens he created were a wonder of the age. The logo, the Crabtree or Wild Apple, is native to Britain and the ancestor of all cultivated apple trees. It was highly prized for its beauty as well as its usefulness in home apothecary.

For over 35 years, Crabtree & Evelyn has been a trusted source of premium natural skin care products. Embrace the riches of the natural world with luxurious bath and body products.
